Hui O Ka Wai Ola

Aloha! We are looking for committed South Maui volunteers to join our water quality monitoring 'ohana!

Hui O Ka Wai Ola is the first citizen science water quality monitoring program of its kind in Hawai'i. Although, a background in science is not required! We provide an onboard training and annual refresher trainings. Our teams sample in the morning once every 3 weeks.

If interested in volunteering, please reach out via our [website](#) or email a [Volunteer Application](#) to huiokawaiola@gmail.com.

Mahalo nui!!

In need of long-term
South Maui field volunteers
