Circle the volunteer opportunities of interest to you:

- ✓ Accounting: Help manage multiple sources of funding as sampling sites expand
- ✓ Eco-Educator: Help with community days and education events
- ✓ Field water quality sampling: Collect water samples from test sites every three weeks. Use monitoring equipment, process samples in the field, and learn about different water quality parameters. Completion of full 12-hour Volunteer Training Course (classroom and field portions) is mandatory for participation.
- ✓ Storm water quality sampling: Safely collect water samples during storm events to understand what the water quality is during these conditions.
- ✓ Fundraising: Help connect caring community members and their check books with a way to support our water quality testing initiatives
- ✓ Lab assistance: Process samples in our satellite lab. Log, weigh and filter samples. Wash field equipment. Transport samples to our shipping carrier.
- ✓ Office and data management assistance: Work with the sponsoring organizations to enter data, file field notes, photography and other types of documentation. Must be 16 or older.

Indicate days and times you are available to volunteer. Times listed are for example only and not set volunteer shifts; this is to get a general idea of your availability.
